

SERVICE-LEARNING PARTNERSHIPS

Service-Learning Partnerships with Goodwill Industries of Tenneva, Inc. facilitate the completion of service hours by high school and college students seeking to meet course, financial aid, or graduation requirements. Participants engage in activities that reinforce their classroom learning experiences and that promote Goodwill's vision of the transformative power of work through service.

FUNDAMENTALS

Participants complete Goodwill 101, an integrative learning module that relates Goodwill's history and mission services. Service plans are developed through conversations with their Goodwill supervisors to meet the expected service-learning and performance outcomes of the programs.

COMMUNITY MATTERS

In addition to Volunteer Services, Goodwill Tenneva serves the community through a variety of targeted internal and external programs and partnerships:

- Digital Skills
- On-Track Program for Employees
- Senior Community Service Employment Program
- Veteran Success Program
- Workforce Development Services

Volunteer opportunities include internships to meet college service-learning obligations and programs to meet community service requirements for the Tennessee Promise Scholarship or similar initiatives. Available placements in all programs are limited.
