SERVICE-LEARNING PARTNERSHIPS

Service-Learning Partnerships with Goodwill Industries of Tennessee Area, Inc. facilitate the completion of service hours by high school and college students seeking to meet course, financial aid, work ethic, or graduation requirements. Participants engage in activities that reinforce their classroom learning experiences and that promote Goodwill’s vision of the transformative power of work through service.

FUNDAMENTALS

Participants complete Goodwill 101, an integrative learning module that relates Goodwill’s history and mission services. Service plans are developed through conversations with their Goodwill supervisors to meet the expected service-learning and performance outcomes of the programs.

Volunteer opportunities include internships, externships/job shadowing, field observations, and practicums to meet college service-learning obligations and programs to meet community service requirements for the Tennessee Promise Scholarship or similar initiatives. Available placements in all programs are limited.

COMMUNITY MATTERS

Goodwill Tennessee serves the community through a variety of targeted internal and external programs and partnerships that include:

- Career and Digital Skills
- Community-Based Learning
- Disaster Relief
- On-Track Program
- Recycling and Sustainability
- Senior Community Service Employment Program
- Veteran Services
- Volunteer Services
- Workforce Development
